

Susan Bihun

An accomplished executive specializing in the management and delivery of social and health services. Her expertise includes managing multimillion dollar operations, and building and fostering highly competent senior management teams who function in complex environments. Susan is a strong collaborative leader and a highly effective change manager, with extensive experience in governance and accountability and in managing diverse stakeholders and complex labour relations.

SELECTED ACHIEVEMENTS

- Executive responsibility for a multimillion dollar initiative that resulted in the closure of Ontario's three facilities for adults with developmental disabilities within budget and on time.
- Facilitation of integration/amalgamation of numerous organizations in health and social services sector
- Expertise in strategic planning and effective change management
- Wide ranging experience in executive management of unionized organizations
- Improved service delivery and outcomes for families of special needs children through the establishment of a process that engaged senior health, hospital and social services executives
