

Bob Cooke

An experienced public sector executive, Bob has a passion for working with not-for-profit organizations and all levels of government in a wide variety of areas such as: strategic planning, organizational design. board governance, service system planning, program research, operational reviews and community consultations. He has a reputation for analyzing complex and sensitive issues and situations, especially in the social services and health sectors, and coming up with solutions.

SELECTED ACHIEVEMENTS

- As CAO, successfully brought a time-limited (three year) independent high profile commission studying contentious public policy issues to conclusion within budget and on time.
- As Director, assembled and directed the multi-disciplinary team responsible for social assistance legislation, culminating in the first new legislation in thirty years
- Led a feasibility study of the applicability of ISO 9000 to a Ministry of the Provincial Government resulting in certification of selected business units.
- Directed the co-ordination of government strategies and designed an innovative program that moves the homeless off the streets and into shelter.
- Managed analysis of government options for response to an independent study of a conflicted, multibillion dollar social assistance system with a resulting \$415M plan of improvements.
- Co-chaired a task force of senior municipal and provincial staff which authored a public action plan for local government to realign delivery of social housing, child care and social assistance in ways that achieve savings and improve service.
